Personal info:

I am interested in IT and everything in its orbit. About three years ago I began to be fascinated by web programming, e.g. developing apps and building websites. I started learning everything that's in my grasp and I really enjoyed learning new things. As I am keen to gain more experience in the field I am ready to start my career as a front-end developer. For this reason, I am looking for a company willing to offer me a placement among their developers. In return, I would offer my full commitment, and be a pleasant and friendly addition to your team.I am therefore currently looking for a job as a **front-end developer**.

05/02/2018–Present	**Prequalification Project in the IT sector of The United Nations Development Program in Serbia (UNDP).**

Vojvodina ICT Cluster, Novi Sad

- .NET

- More advanced level of Frontend web development.
